Spruce, Norway

Picea abies

Classification:	Tree, Evergreen
Height:	50'+
Width:	40-60' x 25-30'
Color	Dark green foliage
Flower Color:	Multi-color
Flower Season:	Late Fall
Sun:	Full Sun
Soil:	Most and well-drained
Climate Zones:	2,3,4,5,6,7
Care Information:	

Description: Pyramidal, stiff-needled conifer forms symmetrical tree when quite young. Color holds all year; new growth is fresh, lighter green. Pendant cones on older plants. Water well in light, sandy soils. Tolerates wind. Prune only to shape, cutting individual branches inside spread so no cut end is exposed. Trim current year's growth to encourage dense branching. Plant for accent or specimen, as hedge, screen, windbreak.

Spiraea, Alpine

Spiraea, japonica 'Alpina'

Classification:	Shrub, Deciduous
Height:	48"
Width:	18"X4'
Color	Pink
Flower Color:	Pink
Flower Season:	Summer
Sun:	Full Sun, Full Shade, Light Shade
Soil:	Any well-drained soil
Climate Zones:	5,6,7,8,9
Care Information:	

Description: Alpine has dark green leaves that are bronze when young. Produces attractive small heads of pink blooms all summer. Makes an excellent groundcover or foundation plant. Medium growth rate.

Coneflower, Purple

Echinacea purpurea

Classification:	Flower, Perennial
Height:	36"
Width:	24-36" x 15-24"
Color	Deep rose-pink to purple petals, dark centers
Flower Color:	Pink, Purple
Flower Season:	Summer, Late Summer, Early Fall, Fall
Sun:	Full Sun
Soil:	Well-drained, especially in winter, fertile
Climate Zones:	3,4,5,6,7,8,9,10
Care Information:	

Description: Vigorous native flowering perennial. Daisy flowers have raised centers, slightly reflexed petals. Leaves are dark green with whitish undersides. Tolerates heat and drought. Grow in border, natural planting, for cutting

Coreopsis, Threadleaf

Coreopsis verticillata 'Zagreb'

Classification:	Flower, Perennial
Height:	18"
Width:	18"
Color	Bright yellow, daisy-like flowers
Flower Color:	Yellow
Flower Season:	Late Spring, Early Summer, Summer, Late Summer
Sun:	Full Sun
Soil:	Dry to medium wet, well drained
Climate Zones:	3,4,5,6,7,8,9
Care Information:	

Description: Threadleaf coreopsis typically grows in dense, bushy clumps to 1-3' tall. 'Zagreb' is more compact and features bright yellow, daisy-like flowers with untoothed rays and darker yellow center disks. Flowers appear singly in loose clusters in a lengthy late spring to late summer bloom period which sometimes extends to first frost.
